

Industry

In today’s mobile video industry, aftermarket products need to excel not only in their ability to reproduce the highest quality picture. They also need to integrate within the confines of the modern vehicle while also exceeding the safety standards set forth by the auto manufactures. In anticipation of such needs, Myron & Davis has introduced an array of outstanding products designed for the enthusiast who will accept no compromise, yet recognizes true quality value and safety.

Innovation

As a pioneer and leader of the Mobile Video industry, Myron & Davis is constantly seeking improvements in its existing products while searching for new solutions to the challenges of modern vehicle integration. For 2011, we have developed AccuMatch™, which is our unique system for insuring accurate matching of even the most difficult vehicle headrest applications. AccuMatch™, enhances our most popular product at Myron & Davis, our industry first Headrest Monitor with built-in DVD player. This all-in-one multimedia solution is ideal for vehicles with limited installation space. With standard multiple A/V source capability, users have the ability to switch between the driver side DVD player, the passenger side DVD player or an auxiliary input. Just like our overhead combo flip-down units, Myron & Davis combo headrest systems come with a wireless FM modulator for shared listening through the vehicle audio system or IR transmitters which allow private listening with included wireless Headphones. Additionally, we continue to offer stand-alone Headrest Monitors capable of integrating with existing OEM sources, portable devices or you may build your own system with our many source or display options.

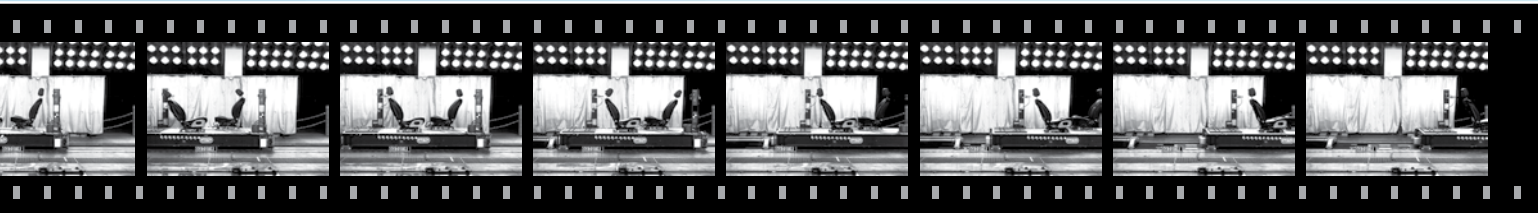

Safety

Myron & Davis has performed a series of test requirements also including OEM safety standards, in order to guarantee its safety of products. We have Sled test, which simulates that when a car accident happens, our products will not cause serious physical injury to the passenger. Myron & Davis also conducts EMI/EMC tests, which ensure that while the product is operating, that it does not emit any harmful electronic interference, but also does not malfunction if there other electronic interferences present. Other Standard Tests that Myron & Davis also performs are hinge, button, and loader life cycle tests, High/Low temp tests (which run the units between in ambient temperatures between +95 degrees C to -40 degree C) and Voltage Tests are also conducted where product is tested to ensure it does not damage itself if there are surges or drops from voltage between 8v to 24v.

In Future

Myron & Davis entered the consumer electronics business in 2000 with a rather ambitious goal, create Mobile Entertainment products offering high performance, value driven price points, world class service yet maintain stringent quality. Ten years later we are happy to say “Mission Accomplished.” 2010 was another successful year for Myron & Davis and it was primarily due to our consistent almost dogmatic approach to customer service while introducing market driven products. As Mobile Video continues to evolve and seamless integration with today’s vehicles becomes more critical, Myron & Davis is proud to offer our most comprehensive line of Profit, Performance and Safe oriented Mobile Entertainment products ever, more evidence of our commitment to always keep moving in forward.

Vehicle Specific Headrest Monitors

- A. 7.0" Active Matrix Display
16:9 Wide Screen Ratio
- B. Built-in Wireless IR Headphone Transmitter with Stereo Input (Passenger: 2.3MHz/2.8MHz) (Driver: 3.2MHz/3.8MHz)
- C. Full Menu Control Buttons with OSD
- D. 30° Pivot Adjustment for Multiple Viewing abgles
- E. IR Sensor Input for DVD Player
- F. User Select 7-Channel Wireless FM Modulator

- 50" HEADREST TILT
- MULTIPLE FOAM DESIGN
- DOUBLE LAYERS OF METAL
- THIN REAR PROFILE
ALLOWS MAXIMUM
VIEWING DISTANCE

For details on the latest application....

Leather & Fabric Swatches

Our popular Headrest Entertainment Systems are all vehicle specific and also feature AccuMatch™ ; a new sysem developed by Myron & Davis to insure an accurate match of your vehicles upholstery including subtleties within the leather grain or texture. Myron & Davis Headrest Entertainment System are considered the benchmark for mobile video performance and feature industry leading DVD player durability by incorporating our patented silent cooling system and allows for multiple sources (i.e.: DVD player with a gaming system, or even a DVD player with a VCR!) without adding additional equipment! You save time and money by eliminating the need to buy or install any amplifiers or swichers, you simply press a button and automatically switch from game to movie and back again.

- How a Myron & Davis Dual Source System works:**
- Each monitor has 2 video and 1 audio inputs.
 - You can select DVD or game by selecting Video 1 or Video 2, with a press a button.
 - DVD Audio transmission from the passenger headrest monitor and Game audio transmits from the driver headrest monitor.
 - Audio transmission uses an infrared (IR) frequency. This allow you to use our wireless IRheadphones.
 - A full frequency selectable, wireless FM modulator with 6 channel presets allows you to hear the audio through the factory speakers.

All these extra features are pre-wired in the Myron & Davis harness allowing the convenience of plug and play.

Lose your remote? Not to worry. Myron & Davis understands it is hard to keep of the remote control sometimes, especially inside a vehicle. Each Myron & Davis monitor has full function control buttons on the front panel of the monitor for easy access, in case you misplace your remote.

Mercedes Benz 2007+ GL, ML, R, Class Active Headrest Solution

- A. 7.0" Active Matrix Display
16:9 Wide Screen Ratio
- B. Full Integrated Top-Loading Slot Load DVD Player
- C. Built-in Wireless IR Headphone Transmitter with Stereo Input (Passenger: 2.3MHz/2.8MHz) (Driver: 3.2MHz/3.8MHz)
- D. Full Menu Control Buttons with OSD
- E. 30" Pivot Adjustment for Multiple Viewing

FEATURES & BENEFITS

• Resolution: 1440 x 234 • 1 Auxiliary RCA A/V input Viewing • Angle: Left/Right: 65°, Top:65°, Down:50° • Brightness Rating: 400cd/m2 (NIT) • NTSC / PAL Auto Switching • On Screen Display (OSD) • Auto Shut Off Feature • Wireless Remote Control • On-Board Control Functions for Most Features	• DVD, VCD, SVCD, CD-R, CD-RW, MP3 Compatible • Last Scene Memory • Zoom Feature • Slow Play Back • 4 Speed Scan • Step Play/Program Play • Multiple Language Menu/ Subtitles • Fast Forward/Reverse

FEATURES & BENEFITS

- A. 8.5" Active Matrix Display 16:9 Wide screen format
- B. Dual High Brightness LED Dome Light
- C. Built-in IR Transmitter for Wireless Headphone
- D. Built-in 7 channel wireless FM modulator with OSD control
- E. Full menu control with OSD on front panel
- F. USB Port for Portable Media Player

- NTSC/PAL Auto Switching
- 1/4 DIN DVD/SVCD/CD/MP3/CR-R/DVD-R Player
- 1 A/V Input, 1 A/V Output and 1 USB Input
- Full Function Remote Control
- Compact, Light Weight and Low Profile Design
- Universal mounting bracket Included
- Two IR Wireless headphone included
- Dimensions: 290 x 280 x 45mm
- 8.5"ctive Matrix Display
- 16.9 Anti Glare Wide Screen Format
- 180° „flip back Screen
- 30° , Lift/ Right Swivel Screen
- Resolution: 800 RGB(W) x 480(H)
- Brightness: 400 NITS
- Contrast: 300:1
- Pixel Pitch(mm): 0.13(W) x 0.45(H)
- Viewing Angle: Lift/Right: 130° , Up/Down:50° / 65°

SDM107
10.2" Wide Screen TFT/LCD Monitor
with Built-in DVD Player/USB/2 IR
Wireless Headphones

180° Flip Back Screen

60° Rotating Screen

FEATURES & BENEFITS

- A. 10.2" Active Matrix Display 16:9 Wide Screen Display
- B. Dual High Brightness LED Dome Light
- C. Built-in IR Transmitter for Wireless Headphone
- D. Built-in 7 channel wireless FM modulator with OSD control
- E. Full menu control with OSD on front panel
- F. USB Port for Portable Media Player

- Viewing Angle: Lift/Right: 60° , Up/Down: 50° / 65°
- NTSC/PAL Auto Switching
- 1/4 DIN DVD/SVCD/CD/MP3/CR-R/ DVD-R Player
- 1 A/V Input, 1 A/V Output and 1 USB Input
- Full Function Remote Control
- Compact, Light Weight and Low Profile Design
- Universal mounting bracket Included
- Two IR Wireless headphone included
- Dimensions:335 x 280 x 45mm
- 10.2"Active Matrix Display
- 16.9 Anti Glare Wide Screen Format
- 180° flip back Screen
- 30° Lift/ Right Swivel Screen
- Resolution: 800 RGB(W) x 480(H)
- Brightness: 400 NITS
- Contrast: 400:1
- Pixel Pitch(mm): 0.0925(W) x 0.2775(H)

Oversize Overhead Entertainment System

AK1154W
15.4" Wide Screen Flip Down TFT/
LCD Monitor/Surface Mount

180° Flip Back Screen

FEATURES & BENEFITS

- A. 15.4" Active Matrix Display 16:9 Wide Screen Formal
- B. Built-in Wireless IR Headphone Transmitter with Stereo Input (2.3MHz/2.8MHZ)
- C. Full Menu Control Buttons OSD
- D. Built-in Dome Lights

- 180°flip back Screen
- Resolution: 1280_854
- Viewing Angle: Lift/Right: 60° , Up/Down: 40°/50°
- NTSC/PAL System
- OSD On Screen Display
- 2 Audio/ Video Inputs
- IR sensor Input for DVD player
- Remote Control
- Universal mounting bracket Included
- Dimensions: 14.6" x 14.2" x 1.8"

Preserve & Protect Your OEM Look

PRESERVE and **PROTECT** the original look of your vehicle with a Myron & Davis GM185. ANS170 or ANS185 - OEM Intergration flip down moniotr. Each unit is specifically designed to maintain the original vehicle interior look by integrating an OEM style flip down moniotr into the exisiting OEM Overhead conscle without modification. Easily installed into the existiing drop down compartment, each unit functions like the factory unit and leaves a clean OEM look and feel.

The GM and ANS systems allow for a faster installation. Without the need for metal brackets or customizing shrouds, your vehicle spends less than in the sop and more time on the road.

The ANS and GM systems are also great for lease vehicle. No disfgurement means that you have PRESERVED and PROTECTED your investment and can return your vehicle back in the original condition and not face needless finacial penalties.

Each OEM upgrade package instals as easy as 1,2,3.

1. Remove the exisiting drop down compartment.
2. Connect and Route the wires from the video source to te simplified wiring harness of the video monitor.
3. Secure the Myron and Davis monitor to the overhead console and you are in command of a high resolution video experience.
